[Safe and Sound Pro II RF Meter](#) **3rd Party Certified RF Detector with +/- 6dB accuracy from 650 MHz to 10GHz, and effective from 200 MHz to 12 GHz!** Also includes a premium OLED Display for digital readings up to 2,000,000 $\mu\text{W}/\text{m}^2$ and down to 0.001 $\mu\text{W}/\text{m}^2$, Max Hold, Max Reset Button, USB Power Jack for Continuous Monitoring, Volume Control, Headphone Jack, Calibration Certificate and more!

[Safe and Sound Classic](#) **3rd Party Certified RF Detector with +/- 6dB accuracy from 650 MHz to 10GHz, and effective from 200 MHz to 12 GHz!** Unlike any other detector in its price range. Engineered and designed by the RF Engineers of Safe Living Technologies, it is a simple to use detector for Radio Frequency / Microwave Radiation and requires no previous technical experience

[Cornet ED88tPlus](#) - Basic Radio Frequency Detector (100 MHz - 8 GHz), Magnetic Field Detector (50 Hz - 10 kHz) and Electric Field Detector(50 Hz - 50 kHz) This meter also provides sound signature analysis and a frequency counter (100 MHz - 2.7 GHz) for Radio Frequency measurements which will help identify sources of Radio Frequency Radiation.
